

THE KING'S BOOK OF NUMEROLOGY, VOLUME 11
THE AGE OF THE FEMALE – VOLUMES 1 & 2

The rise of the female has been an extraordinary event in world history. In what is basically a blink of cosmic time, she has sprung upon the great life stage with an outstanding entrance. Females now occupy positions and places of prestige reserved exclusively to her male counterpart just a few decades ago. Within the dawning of this modern world, women have become presidents and prime ministers of nations, cabinet members of world governments, admirals and generals of military forces, captains of manned space flights, billionaire entrepreneurs, titans of industry, leaders of corporations, doctors, lawyers, police officers, fire fighters, presidents of educational institutions and a whole host of other prestigious titles. Such a rapid rise in prominence begs the question, "Why?"

In this cause and effect universe nothing is happenstance. There is order to everything, even though we may not initially understand it. Within that order there are answers. We just have to dig deeply into the universal fabric of the "not as yet known" to find them. This book is the result of digging into that fabric using the science of numerology, of searching for answers to the relatively rapid ascent of the female in our world. As I searched for answers, I kept finding answers, incredible answers, answers so overwhelming to me as a professional numerologist I felt compelled to share them. Symbols and numbers are two of the languages God uses to communicate with man. The dawning of female prominence on our earth is profoundly depicted in both symbols and numbers of people, places, objects and events of the 19th and 20th Centuries. The information offered here is for your consideration, and to me it is overwhelming proof that, indeed, the Age of the Female has arrived and it is now her time to take center stage on the great stage of earth.

This book is actually two books in one: *The Age of the Female – A Thousand Years of Yin* (Part 1) and *The Age of the Female II – Heroines of the Shift* (Part 2). Part 1 contains the amazing numerological aspects of this current Second Millennium. Part 2 involves no numerology but rather focuses on famous and notable women in various walks of life.
