Richard Andrew King provided the most in-depth numerology reading I have ever received. His reading helped me to understand my entire life. I now understand my script, my path, and why some of the events of my life happened. It helped to take away the grief, the guilt and the pain. I could tell as soon as the reading began that Richard King was far more skilled and in depth than any reading I had ever received. Beginning numerology does not handle it. It takes a completely educated person to totally bring the subject all together. Richard Andrew King should be called Dr. King.

His books are of the magnitude that will be read with reverence for generations to come.

Thank you with all my heart and soul. The reading was wonderful. I am even purchasing a reading for my daughter, as I know it will help me in my parenting of her.

Thank you, Richard.

I have read your book, *The Kings Book of Numerology*. It is the best numerology book I've ever read.

Hunter Stowers
Numerologist/Intuitive

Richard Andrew King breaks new ground! It's almost as if the very Spirit of Numerology is using King as an instrument to evolve this ancient science to a new level. After learning from King's teaching, it is impossible to conceive of going back to that 'twilight naive and foggy' state of being where one can only guess or hint at the truths, motivations and directions of one's life that are Pre-King.

Frank Monahan
Educator/Numerologist

I highly recommend any of Richard King's books on numerology. Anyone interested in the subject of numerology, from the beginning student to the advanced adept, will find a treasure of information in any of his books. I believe Richard's pioneering work and many of the concepts he has developed will be recognized some day as stunning innovations to this incredibly interesting subject. I have a feeling that this great opus that King's produced will become one of the classics in the spiritual science of Divine Numbers.

George Shaver
Metaphysician/Psychic

I will say without hesitation that *The King's Numerology* is true and real. Richard Andrew King's knowledge of numbers changes intangible spirituality and divination into solid, practical, objective reality. In a word, Richard Andrew King brings science to the art and practice of divination and spirituality. He brings proof to the otherwise unprovable; solid evidence to the not-so-solid-universe of the divine. *The Kings Book of Numerology Series* contains new information that informs and predicts more completely and accurately than any previously published numerological work. I personally feel Richard Andrew King is bringing back the empowered sciences of long ago, information long since lost upon this plane. I would recommend *The Kings Book of Numerology Series* to everyone practicing or wanting to practice divination. All who read King's works will benefit and be blessed. Richard Andrew King is the best!

There can be no doubt about the validity of Richard King's research and intuitive use of numerology. His application of this metaphysical science goes well beyond other ancient schemes such as astrology and the enneagram in giving us direction by clarifying who and what we are.
