Richard Andrew King breaks new ground! It's almost as if the very Spirit of Numerology is using King as an instrument to evolve this ancient science to a new level. After learning from King's teaching, it is impossible to conceive of going back to that 'twilight naive and foggy' state of being where one can only guess or hint at the truths, motivations and directions of one's life that are Pre-King. **Hunter Stowers**, Numerologist/Intuitive

I highly recommend any of Richard King's books on numerology. Anyone interested in the subject of numerology, from the beginning student to the advanced adept, will find a treasure of information in any of his books.
Frank Monahan, Educator/Numerologist

Richard Andrew King's knowledge of numbers changes intangible spirituality and divination into solid, practical, objective reality. In a word, Richard Andrew King brings science to the art and practice of divination and spirituality. He brings proof to the otherwise unprovable; solid evidence to the not-so-solid-universe of the divine. **George Shaver**, Metaphysician/Psychic

Richard King's in-depth knowledge and research in numerology can open new doors to the inner soul and give insight to potential relationship building skills!
Dr. M.P. Wylie, Founder, Transpersonal Research Foundation

There can be no doubt about the validity of Richard King's research and intuitive use of numerology. His application of this metaphysical science goes well beyond other ancient schemes such as astrology and the enneagram in giving us direction by clarifying who and what we are.
Dr. Emily Hancock, Harvard, Executive Editor: Moxie Magazine
