INTRODUCTION

What is Numerology?

Numerology is the *science of numeric coding* wherein numbers and their corresponding letter values define and describe our lives, relationships and destinies.

What is The King's Numerology™?

The King's Numerology™ references the *divine nature* of numbers as they relate to life, as opposed to a worldly or mundane nature. The tag line for The King's Numerology™ is *Discovering the Divine Design of Your Life*. Its foundational principle is that numbers are God Codes serving as labels for the energy fields which comprise us and our destinies.

The King's Numerology™ is based on the fundamental premise that there is only one King and that King is the Creator of the universe, i.e., God, and that numbers are a universal means of communication.

Origins of Numerology

The origins of numerology in the modern world stem from Pythagoras, a philosopher and mathematician born in Samos, Greece. He settled at Crotona, S. Italy (c.530 BC) where he founded a moral and religious school. Pythagoras is associated with discoveries involving the chief musical intervals, the relations of numbers, and with more fundamental beliefs regarding the representation of the world of nature through numbers. His teaching also included the doctrine of the transmigration of souls between successive bodies. Furthermore, Pythagorean thought exerted considerable influence on Plato's doctrines (reference: atomica.com).

Pythagoras, generally regarded as the Father of Numerology, was obviously a spiritually focused soul. With his emphasis on moral and religious teachings, transmigration of the soul, and his astute understanding of the interrelationship between nature and numbers, it would be hard to argue otherwise.

How is Numerology Related to life?

Order is the first law of the universe. No where else is this more clear than through numbers. Everything that exists in this universe, for all practical purposes, exists in a state of vibration. Light, sound, music, colors can all be reduced to numbers. Numbers are nothing more than the cosmic codes which identify these vibrations and the energies emanating from them. A few quotations and observations . . .

Pythagoras: *Numbers rule the universe. Everything is arranged according to number and mathematical shape.*

Sir Isaac Newton: *1. God created everything by number, weight and measure. 2. It is the perfection of God's works that they are all done with the greatest simplicity. He is the God of order and not of confusion.*

Periodic Table of Elements: all elements are identified by number(s) and letter(s).

Ex: Hydrogen: atomic #1, letter H; Carbon: #6, letter C; Oxygen: #8, letter O; Silver: Ag & 47; Gold: Au & 79, etc.

What is the Purpose of Numerology?

One of the major purposes of numerology is to assist us in gaining a deeper understanding of ourselves in relation to our life's Divine Design. With such an understanding there is the hope that we can live life more efficiently, adjust to its ever-flowing tides more smoothly, move with a more direct purpose, exude more confidence, and express greater balance, awareness, harmony, peace and understanding as we experience our special 'walk' through this incarnation.

What are the Benefits of Numerology?

1. Know yourself [This goes to "Know Thyself" – the Greek admonition inscribed over the Temple of Delphi]
2. Know Others: our spouse, significant other, children, business partners, friends, etc.
3. Build Better and more meaningful Relationships
4. Raising and Guiding Children by Their Numbers (those defining their destinies)
5. Prepare for the Future
6. Remain Balanced Throughout life. Balance is Primary.
7. Expand individual consciousness beyond the boundaries of normal human understanding and gain access to the inner secrets of life's design.
8. Knowing God, Source, Spirit. God is Real. Numerology proves it.
9. Sharing the truth of numbers and their connection to life with others so they, too, will be benefited.

NUMBERS - Notes

1. Numbers are codes, labels for energy fields
2. All numbers have two sides: one positive, one negative. Odd numbers=positive charge; Even numbers=negative
3. Each side contains a frequency range of its polarity
4. Polarity charges possess both an *Interpolarity* and *Intrapolarity*
5. Binary roots: all single numbers maintain 10 binary/transition roots (refer to Keyword Chart)

EXPANDED KEYWORDS/KEY PHRASE CHART

Note 1: Every number maintains a positive and negative side (polarity), just as every coin has two sides. Furthermore, we cannot hold a coin without holding both sides simultaneously. The same is true for numbers, and our lives reflect both the positive and negative aspects of each vibration to some degree. In other words, no number is perfect, no chart is perfect, no human being is perfect. We all have assets and liabilities, good karmas and bad karmas.

Note 2: Every single number has ten binary or two-digit numbers attached to it and which, when added together, reduce to form that specific single number. These will be discussed more fully in the chapter on double numbers. They are listed below for reference. (see *The King's Book of Numerology, Volume 1 – Foundations & Fundamentals*).

Note 3: It would be impossible to list every word in the English language which is attached to each of the nine basic numbers. After all, there are only nine basic numbers and hundreds of thousands of words. Therefore, a complete keyword list would be impossible to generate. Below, however, are more words and phrases than simply those used in the basic keyword chart.

FIVE - 5

(Fire) (Symbols: Wings - Wheels - Needles - Broken Chains)

----	----	----	----	----	----	----	----	----	----

Freedom, fire, change, movement, detachment, detaching, shifting, non-restriction, nonrestrictive, shifts, slavery mercurial, spontaneous, excitement, experience, experiential, variety, talent, versatility, people, senses, sexuality, sensations, stimulation, motion, energy, mercurial, multi-faceted, many sided, assortment, exuberant, enthusiastic, exciting, spontaneous, foot-loose, flamboyant, dashing, energetic, exploring, exposure, exhibitionist, adventurous, travel, unpredictable, unconventional, uncertain, the crowd, diverse, diversity, letting go, unrestrained, wild, free-spirited, rebellious, rebel and the rebel, liberation, liberating, stimulating, stimulants, non-complacent, temperance, restraint, indulgence, animated, exuberant, volatile. TIME FRAME: a time of freedom, change, shifting, movement, uncertainty, detachment, letting go, exploring, investigating, experimenting, sexuality, sensual gratification; temperance and fidelity challenged; not a time to cling, but a time to let go and move on; also a time testing our true understanding of freedom which is not action devoid of consequence but action taken in consideration of consequence. Nothing is free in this universe. Everything has a cost. Action taken in pursuit of sensual pleasures, sense gratification, and wild sorties into the realms of indulgence create slavery and bondage and all the suffering, woes, and wailings associated with such incarceration. Contrarily, if the action of freedom is taken in consideration of consequence by following the inner voice of conscience, temperance, and restraint, the end result will be true freedom and liberation from

sensual enslavement. The key note during a Five period is to be wise; look ahead to the results of your actions; exercise moderation and fidelity and do not step into the regions of material indulgence, for the sensuous footing is slippery, deceitful and absolutely enslaving. Nothing good comes from exploring the dark side of life and its pleasures where the soul risks falling into the dark abyss of eternal tears and sorrow.

SIX - 6

(Water) (Symbol: Heart)

15	24	33	42	51	60	69	78	87	96

TIME FRAME: a time of matters of the heart, love issues, domestic (individual, personal, community, national, global) energies, concerns, responsibilities, possible addictions, romance, lust, sexuality. Here the individual will be given tests of lust vs. love, often painfully learning that lust is not love, that lust leads to disease, dis-ease, heartache, heartbreak, addictive enslavement, broken homes, broken lives, broken dreams. It is also a time where the individual may have to learn not to sacrifice his own soul for others. Every soul has a right to its own self before others.

LIFEPATH (LP)

(Derived from the Full Birth Date)

The Lifepath: Analogies (Path in life, energy world, life script, amusement park ride)

The Lifepath is based on the birth date of the individual (Day-Month-Year). The Lifepath is, literally, the path we will follow – are forced to follow – in our life. It is the spiritual-cosmic numerical energy world to which we're sent, the 'Energy Sphere (Spiritual-Cosmic World) of involvement' for the soul during this current incarnation. All of the actions, events, circumstances, situations, dramas and life lessons will be contained within its vibrational boundaries.

The Lifepath can also be viewed as the 'Script' of our lives, the Screenplay (the 'play') whose covers are filled with pages of life's dramas involving different settings, characters, events, circumstances, trials, tribulations and situations contained within the Acts (Epochs: Day, Month, Year of birth) and their concomitant Scenes of the play, all played out on the Great Karmic Stage. Some Life Path Screenplays are markedly comedies, some are markedly tragedies, some are uneventful histories. But all will, to one degree or another, be marked by life and death, smiles and tears, joys and sorrows.

The Lifepath may also be characterized as a 'Ride' or 'Attraction' like those found in an amusement park. We get onboard the ride at birth and are carried through various aspects of our life's journey. It can be scary, pleasant, fun, dangerous, even perilous, but nonetheless, it is still a 'scripted journey' for the soul, a 'ride' from which we may not escape until it is over.

As a note, the Lifepath is not "us." As stated, it is the script of our lives. Its meaning can be summed up in the acronym LIST, which stands for Lessons, Influences, Subjects and Themes of our life.

Lifepath Calculation

To calculate the Lifepath, write down the birthdate in the following horizontal fashion: DAY - MONTH - YEAR, and simply add the actual birth date numbers left to right. The first double number is the *General Lifepath*. Any double numbers discovered in the reducing process will be a *Transition Lifepath* root. The *Specific Lifepath* is discovered by adding the Specific Values of the birth date data. For example, to find the Specific Value of the birthdate 31 December 1999, add $31 + 12$ (Dec.) $+ 28$ (1999) = 71 (Specific Lifepath)

Transition roots may be hidden. For example, if the 31 were reduced to a 4; the 12 reduced to a 3; and the 28 reduced to a 10, the addition process would look like this: $4 + 3 + 10 = 17$. This "17" is a Transition root. It is real and exists within the layers of the reduction process.

Yet another Lifepath calculation variation involves the "stack & add" method in which the day, month and year are written in a vertical column rather than a horizontal row and then added together. This method may reveal a master number hidden within the birth date, which the horizontal method would not. See example #4 below.

EXAMPLES

1. Elvis Aaron Presley – Date of Birth: 8 January 1935

	Day	Month	Year					LP

3. General George Patton: Born – 11 November 1885

Transition-t				=			=	

Patton: Lifepath Layers	
Simple (Crown) Lifepath	8
Transition Lifepath	none
General Lifepath	26
Specific Lifepath	44

Note: 44 is a master number and is commonly found in the charts of generals, executives, managers and people with ability to connect the organizational dots and make things flow efficiently. If either the 4 or 8 is void, the connection process will be more challenging.

4. Anonymous. Born 16 March 1956

Born: 16 March 1956. Adding left to right in any combination does not yield a master number. However, when the birthdate components are Stacked and Added, a 22 master number appears.

	Day	Month	Year					LP
	16	March	1956	=			=	
Simple/Single	7	3	3	=	13t	1 + 3	=	4
General-g	1 + 6	+ 3	+ 1 + 9 + 5 + 6	=	31g	3 + 1	=	4
Specific-s	16	+ 3	+ 21	=	40s	4 + 0	=	4
Transition-t				=	13t		=	

Now "Stack and Add" the birth date components together. Note how the master number 22 appears.

Stack & Add Process

1 + 9 + 7 + 5 = Master Number	22
